

NUTRITION PLAN

-2000 – 3000 kcal

-Weight maintenance

-Muscle mass building

-Healthy relationship with food

Fitness coach:
Dejan Badzukov

INTRODUCTION

This nutrition plan provides meal options throughout the day for anyone looking to increase muscle mass.

It’s designed to be flexible for everyone’s taste, meaning meals can be chosen freely without a strict order or regime. At the same time, they are quick and easy to prepare.

The goal is to avoid monotony in healthy eating by using tasty and interesting meals. It’s important to enjoy food and maintain balance, rather than seeing nutrition as something negative that requires restriction or hunger to achieve goals.

Personally, I don’t like strictly counting calories or weighing food, because it can create an unhealthy approach to nutrition. By following any of the listed recipes throughout the day, daily intake roughly ranges between 2300–3000 kcal.

This plan is meant to complement regular physical activity and training, which are essential for proper muscle gain.

Hope you enjoy it and reach new heights with every delicious bite ❤

BREAKFAST:

Option 1: Classic

Ingredients:

6 eggs (3 whole + 3 whites)

Bread (one white, whole grain, or tortilla)

Cheese (slice or grated, in moderation) 30 gr.

P: 40gr. C:25gr. F: 27gr. Kcal: 509
(for lower fat intake replace the cheese with greek yogurt 150gr.)

Option 2: Bodybuilder Oats

Ingredients:

100g oats

1 scoop protein powder

Banana or frozen fruit

Cocoa powder

Stevia

Peanut butter (optional)

P: 40gr. C: 100gr. F: 16gr. Kcal: 686 (with pb)
(reduce to 80 gr. Oats for lower carb intake)

Option 3: “Baki” Shake

Ingredients:

50g oats

Greek yogurt 150gr.

1 scoop protein

Banana (preferably frozen)

Frozen fruit

Milk 150 ml.

Stevia + ice cubes

(Blend until thick)

P: 50gr. C:75gr. F: 10gr. Kcal: 588

Option 4: Anabolic Pancakes

Ingredients:

100gr. oats (blended)

Greek yogurt 150 gr.

1 scoop protein

2 whole eggs

100–150ml milk

Banana

Stevia

Baking powder

(Blend and cook on low heat)

P: 63gr. C:104gr. F: 19gr. Kcal: 820 /

Toppings: whipped cream, honey, boiled frozen fruits as jam, no sugar added jam, or small drizzle of pb.

Option 5: French Toast

Ingredients:

3–4 slices bread 150gr.

2 whole eggs + 3 egg whites

1 scoop protein

50–150ml milk

Cinnamon

SNACKS:

- **Greek yogurt 150gr. + protein 1 scoop + granola 30gr. (no added sugar)**
  P: 41gr. C:25gr. F: 8gr. Kcal: 350
- **Sugar-free protein chocolate**
- **Protein pudding**
- **Pretzel sticks (peanut flavor)**
- **PB 40 gr. Spread on 3 rice cakes + 1 banana**
  P: 12gr. C:57gr. F: 21gr. Kcal: 450
- **Fruit salad**
- **Protein shake + banana**

NOTE

Include vegetables with every meal

Prefer cooking with olive oil

Pay attention to product ingredients (sugar, palm oil, etc.)

Eat 3 of these meals throughout the day because they are high in calories and macros, for heavy lifting days and active, you can include 1 snack.

If you want more or less calories of each meal, just add or reduce the grams of the meals.

CARBOHYDRATES:

- **Oatmeal**
- **Cream of wheat**
- **Brown rice**

- **Couscous**
- **Applesauce**
- **Sweet potato**
- **Whole wheat wraps**
- **Potatoes**
- **Corn**
- **Pasta / spaghetti**
- **Rice**
- **Quinoa**
- **Bread**
- **Fruits**

PROTEINS:

- **Vegetables**
- **Fruits**
- **Eggs**
- **Tuna**
- **Chicken**
- **Pork**
- **Turkey breast**
- **Fish**
